### *Beet Latte*

**with Fermented Beet and Probiotics**

Natural Traditions CBD+ Beet Latte combines organic beet juice, organic whole beet root and fermented beet powder with coconut milk, coconut palm sugar, ginger dual extract along with 1 billion probiotics per serving. Beet root's delicious earthy notes and nutrient-dense profile make it a universal delight in modern day cuisine. Beets are used by endurance athletes for their performance enhancing effects of boosting nitric oxide production.

### *Matcha Latte*

**with Probiotics**

Natural Traditions CBD+ Matcha Latte combines organic matcha green tea powder with coconut milk and coconut palm sugar, along with 1 billion probiotics per serving. For centuries, Japanese matcha has been the most respected green tea in the world and has traditionally been consumed for health and longevity. Organic Traditions Premium Matcha is made from Japanese, early-harvest, tencha, shade grown buds that are handpicked and ground into a fine, jade coloured powder in order to preserve the true taste, aroma and antioxidants.

### *Chocolate Latte*

**with Ashwagandha and Probiotics**

Natural Traditions CBD+ Chocolate Latte combines pure cacao powder with coconut milk, coconut palm sugar, sea salt, ashwagandha dual extract along with 1 billion probiotics per serving. Ashwagandha is traditionally used to promote stamina and increase energy. Cacao beans were once so prized by the Maya and the Aztec that they were used as currency, and named as the "Food of the Gods". The beans were traditionally ground into a paste to make delicious chocolate dishes and ceremonial drinks.
